

Trusted Laboratory Chemicals, Supplies and Equipment

For research, testing and analysis, equip your laboratory with the right products that ensure reliable, precise results.

Spectrum Chemical has a 50-year track record meeting the specialized needs of analytical laboratories for virtually any testing protocol – from academic research to breakthrough innovations.

Plus, with our highly personalized, responsive service, we ensure products are available and delivered when you need them most.

- Broad selection of products with fast shipping and order status tracking
- Exceptional product purity to meet or exceed ACS, USP-NF, BP, JP, EP, cGMP, HPLC and other specifications
- In-house QC testing to safeguard quality and ensure consistency
- Manufactured, packaged and stored under cGMP in FDA-registered and inspected facilities
- Easy to purchase via SpectrumChemical.com or through all major distributors

Categories

ACS Grade Chemicals & Reagents	Analytical Reference Standards	HPLC & Chromatography Solvents
<p>More than 400 chemicals that meet or exceed purity standards set by the American Chemical Society.</p>	<p>Fine chemical standards for spectroscopy, chromatography and other analytical methods.</p>	<p>Wide variety of gas chromatography solvents including for high-purity liquid chromatography techniques.</p>
		
		

Chemical Solutions	Organic Chemicals	Analytical Buffer Solutions
<p>More than 1000 ready-made solutions and reagents for analytical testing including pH buffers, chemical chelating agents, indicators, synthetic reagents, reference standards, standard testing and USP volumetric solutions.</p>	<p>More than 35,000 organic synthetic reagents and intermediates, inorganic and organometallic reagents, life science and glycol-chemicals, material science building blocks plus chromatography reagents and columns.</p>	<p>High quality buffers, indicators and pH solutions for general chemical laboratory bench analyses.</p>
		
		

Supplies	Equipment	Lab Safety
<p>Filtration devices, glassware, plasticware, chromatography supplies and other consumables from the world's most trusted brands.</p>	<p>Weigh, measure or stir with a vast array of lab equipment ranging from pipettors and hotplates to microscopes and furniture.</p>	<p>A broad selection of lab safety supplies including PPE as well as items for chemical transport, storage, spill control and cleanup.</p>
